

Brewers Yellow Corn Flakes

TYPICAL ANALYSIS

Moisture	8.0%
Extract FG Dry Basis	75.0%
Protein Dry Basis.....	10.0%
Diastatic Power ^o Lintner	negligible
Conversion Time	<10 min.
Color	0.8 ^o Lovibond
(Degree Lovibond, Series, 52, 1/2" Cell)	

INGREDIENTS

Corn; May Contain **Wheat**

ITEM NUMBER

7275	25-pound multi-wall paper bags
7174	1500# Super Sacks

KOSHER CERTIFICATION

UMK Pareve

STORAGE AND SHELF LIFE

Best if used within 6 months from date of manufacture.
Store in a dry area at temperatures of <90 °F.
Handle with care to avoid breaking the flakes.

CHARACTERISTICS / APPLICATIONS

- Brewers Yellow Corn Flakes can be used as a cereal adjunct. The flakes can be added to the mash without first using a cereal cooker. The pregelatinized flakes will give a higher yield and a more trouble-free brew than a conventional flaked corn. Also, the corn has been degermed (the oil removed), thus eliminating rancidity.
- Using Pregelatinized Yellow Corn Flakes as an adjunct produces a lower color in the finished beer without lowering the original gravity.
- Add directly to the mash with the malts. **Do not mill.** A single or multiple temperature infusion can be used. Conversion time and lautering time will be normal.
- Pregelatinized Yellow Corn Flakes produce a beer with a mild, less malty flavor
- Pregelatinized Yellow Corn Flakes produce a drier, more crisp beer.
- Use up to 40% as a cereal adjunct in the total grist
