

MATERIAL SAFETY DATA SHEET for MALT EX-MALTHOUSE

1. Identification of substance and of the manufacturer.

Product name:	Malted barley (Malt)
Product use:	Foodstuff
Company name:	MOUWERIJ DINGEMANS
Address:	LAAGEIND 43 2940 STABROEK BELGIUM
Telephone:	0032.3.568.68.68
Emergency contact details:	DINGEMANS KARL

2. Information on main ingredients

Gross composition (typical):	Malt is a whole grain cereal food product
Carbohydrates	75 - 80%
of which Starch	58 - 62%
Protein	10 - 12%
Fat	3%
Minor components	1 - 2%
Ash	3%
Water	4%
Dust	< 1%

3. Hazards information

Not classified as hazardous under Directives 67/548/EEC and 1999/45/EC	
Eyes and skin	Not irritating to eyes or skin
Ingestion	Non-hazardous food product
Inhalation	Inhalation of dust may affect respiratory tract

4. First aid measures

General exposure	Not hazardous
Inhalation of dust	Remove from exposure. Consult physician if coughing or other symptoms persist.

5. Fire hazards

Special hazards	Can give rise to hazardous fumes (oxides of carbon) on combustion.
Protective equipment	If fire is severe wear self-contained breathing apparatus

DINGEMANS

6. Accidental release <i>Personal protection</i> <i>Environmental precautions</i>	Not required Avoid the material entering water courses or drains
7. Handling and storage	Stores should be suitable for foodstuffs, dry and protected from contamination with birds, insects and vermin.
8. Exposure controls	Not normally required
9. Physical and chemical properties <i>Physical state;</i> <i>Colour;</i> <i>Odour;</i> <i>Density;</i> <i>Angle of repose;</i> <i>Volatility;</i> <i>Solubility:</i> <i>Combustion temperature;</i>	solid pale brown to black, depending upon type. slight, characteristic 0.55 tonnes/cu.metre 26° from the horizontal Not volatile Not soluble in water (slowly decomposes by microbial action) approx 220°C
10. Stability and reactivity <i>Stability;</i> <i>Incompatibility;</i> <i>Hazardous combustion;</i>	Stable under normal conditions. None known Combustion will generate oxides of carbon.
11. Toxicological information	Non-toxic food product
12. Ecological information	Biodegradable. Nutrient source.
13. Disposal	Can be disposed of to landfill
14. Transport	Not classified as hazardous under relevant Directives
15. Labelling	Not applicable
16. Other <i>Issue Number;</i> <i>Date;</i>	The information in this Safety Data Sheet is correct to the best of DINGEMANS MALTINGS 's knowledge. 1 2023
