This product is used as a processing aid in the manufacturing and production of beer.

Add directly into the kettle, ideally 10 minutes before the end of the boiling period. If boiling is stopped to perform the addition (for safety considerations) it should be recommended immediately and allowed to proceed for the normal period.

It is useful to routinely collect a small sample of each wort after cooling and check/record clarity.

This enables the effect of changes in raw materials e.g. malt, to be monitored.

It is recommended that a fining trial is performed to determine optimum dose rate.

Dispersion

To disperse the product without lumps, premix the powder with other dry ingredients and pour the preparation into the liquid while stirring. Continue stirring to obtain a complete dispersion.

Dissolution

This dissolution of the product depends on the medium and the process. It is improved by heat (time, temperature), shear-stress (homogenizer, mixer). This dissolution of the product depends on the medium and the process. It is improved by heat (time, temperature), sheer-stress (homogenizer, mixer).

KEY PERFORMANCE PARAMETERS

Test			Units	Method
pH	8.5 - 10.5			Kerry Internal Method
Viscosity	5	Minimum	cps	
Moisture	12	Maximum	%	Kerry Internal Method

MICROBIOLOGICAL DATA

TEST		METHOD
E.coli in 5g	Not Detected	FDA-BAM (Online) Chapter 4
Salmonella spp. in 25g	Not Detected	FDA-BAM (Online) Chapter 5
Standard Plate Count	<5000 cfu/g	FDA-BAM (Online) Chapter 3
Yeasts & Moulds	<100 cfu/g	FDA-BAM (Online) Chapter 18

All Kerry manufacturing facilities and standard operating procedures have been designed to minimise allergenic residue carry over between products, and all procedures are auditable. Due to the nature of our business we do carry allergenic raw materials, as a result we are not able to give any absolute guarantees to the total absence of trace residues. Our continuous improvement plans, product design and validation programs focus on taking all commercially viable steps possible to ensure this is minimised.

COUNTRY OF ORIGIN

Product of the Philippines

SHELF-LIFE & STORAGE

24 months from the date of manufacture when stored unopened, in a clean, dry location. The Best Before Date is declared in open code on the label or on packaging.
